The Journal of General Psychology, 2005, *132*(4), 462–464

Index to Volume 132

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (January): 1–112
Number 2 (April): 113–224
Number 3 (July): 225–320
Number 4 (October): 321–464

AUTHOR INDEX

Chiappe, D., & MacDonald, K. *The evolution of domain-general mechanisms in intelligence and learning.* 5–40.

Choi, H., & Smith, S. M. *Incubation and the resolution of tip-of-the-tongue states.* 365–376.

Dunlosky, J., Serra, M. J., Matvey, G., & Rawson, K. A. *Second-order judgments about judgments of learning.* 335–346

Fabio, R. A. *Dynamic assessment of intelligence is a better reply to adaptive behavior and cognitive plasticity.* 41–64.

Farmer-Dougan, V., Chandrashekar, S., Stutzman, D., Bradham, K., & Dougan, J. D. *Fox urine as an aversive stimulus: Modification of a passive avoidance task.* 313–320.

Ferraro, F. R. *Remarks of the out-going executive editor.* 229–230.

Gibson, J. M., & Bahrey, R. *Modality-specificity effects in priming of visual and auditory word-fragment completion.* 117–137.

Gibson, J. M., Goolkasian, P., & Karkowski, A. M. *In-coming Executive Editors' editorial statement.* 325–327.

Hall, M. D., & Blasko, D. G. *Attentional interference in judgments of musical timbre: Individual differences in working memory.* 94–112.

King, D. L., & Hauser, S. R. *Discrimination is more closely associated with perceived similarity than with distance and color.* 293–311.

Krug, K. S., & Weaver, C. A., III. *Eyewitness memory and metamemory in product identification: Evidence for familiarity biases.* 429–445

Leppänen, P. K., Ewalds-Kvist, S. B. M., & Selander, R.-K. *Mice selectively bred for open-field thigmotaxis: Life span and stability of the selection trait.* 187–204.

Lippman, L. G., & Tragesser, S. L. *Constructing something funny: Levels of associative connection in Tom Swifties.* 231–242.

Majeres, R. L. *Phonological and orthographic coding skills in adult readers.* 267–280.

McCray, J. A., King, A. R., & Bailly, M. D. *General versus gender-specific attributes of the psychology major.* 139–150.

Otani, H., & Widner, R. L., Jr. *Metacognition: New issues and approaches.* 329–334.

Parrott, D. J., Zeichner, A., & Evces, M. *Effect of trait anger on cognitive processing of emotional stimuli.* 67–80.

Rönnlund, M., Karlsson, E., Laggnäs, E., Larsson, L., & Lindström, T. *Risky decision making across three arenas of choice: Are younger and older adults differently susceptible to framing effects?* 81–92.

Schwartz, B. L., & Frazier, L. D. *Tip-of-the-tongue states and aging: Contrasting psycholinguistic and metacognitive perspectives.* 377–391.

Shields, W. E., Smith, J. D., Guttmannova, K., & Washburn, D. A. *Confidence judgments by humans and Rhesus monkeys.* 165–186.

Son, L. K. *Metacognitive control: Children's short-term versus long-term study strategies.* 347–363.

Stark, C. P. *Behavioral effects of stimulation of the medial amygdala in the male rat are modified by prior sexual experience.* 207–224.

Terry, W. S. *Serial position effects in recall of television commercials.* 151–163.

Tragesser, S. L., & Lippman, L. G. *Puns and near puns in fables.* 243–254.

Tragesser, S. L., & Lippman, L. G. *Teasing: For superiority or solidarity?* 255–266.

Washburn, D. A., Smith, J. D., & Taglialatela, L. A. *Individual differences in metacognitive responsiveness: Cognitive and personality correlates.* 446–461.

Widner, R. L., Jr., Otani, H., & Winkelman, S. E. *Tip-of-the-tongue experiences are not merely strong feeling-of-knowing experiences.* 392–407.

Wiley, J., Griffin, T. D., & Thiede, K. W. *Putting the comprehension in metacomprehension.* 408–428

Wolach, A. H., & McHale, M. A. *Line spacing in Mondrian paintings and computer-generated modifications.* 281–291.

TITLE INDEX

Attentional interference in judgments of musical timbre: Individual differences in working memory. *Michael D. Hall & Dawn G. Blasko.* 94–112.

Behavioral effects of stimulation of the medial amygdala in the male rat are modified by prior sexual experience. *Charles Patrick Stark.* 207–224.

Confidence judgments by humans and Rhesus monkeys. *Wendy E. Shields, J. David Smith, Katarina Guttmannova, & David A. Washburn.* 165–186.

Constructing something funny: Levels of associative connection in Tom Swifties. *Louis G. Lippman & Sarah L. Tragesser.* 231–242.

Discrimination is more closely associated with perceived similarity than with distance and color. *Donald L. King & Sheketha R. Hauser.* 293–311.

Dynamic assessment of intelligence is a better reply to adaptive behavior and cognitive plasticity. *Rosa Angela Fabio.* 41–64.

Effect of trait anger on cognitive processing of emotional stimuli. *Dominic J. Parrott, Amos Zeichner, & Mark Evces.* 67–80.

The evolution of domain-general mechanisms in intelligence and learning. *Dan Chiappe & Kevin MacDonald.* 5–40.

Eyewitness memory and metamemory in product identification: Evidence for familiarity biases. *Kevin S. Krug & Charles A. Weaver III.* 429–445.

Fox urine as an aversive stimulus: Modification of a passive avoidance task. *Valeri Farmer-Dougan, Seshanand Chandrashekar, David Stutzman, Kari Bradham, & James D. Dougan.* 313–320.

General versus gender-specific attributes of the psychology major. *Jason A. McCray, Alan R. King, & Matthew D. Bailly.* 139–150.

In-coming Executive Editors' editorial statement. *Janet M. Gibson, Paula Goolkasian, & Andrea M. Karkowski.* 324–328.

Incubation and the resolution of tip-of-the-tongue states. *Hyun Choi & Steven M. Smith.* 365–376.

Individual differences in metacognitive responsiveness: Cognitive and personality correlates. *David A. Washburn, J. David Smith, & Lauren A. Taglialatela.* 446–461.

Line spacing in Mondrian paintings and computer-generated modifications. *Allen H. Wolach & Maureen A. McHale.* 281–291.

Metacognition: New issues and approaches. *Hajime Otani & Robert L. Widner Jr.* 329–334.

Metacognitive control: Children's short-term versus long-term study strategies. *Lisa K. Son.* 347–363.

Mice selectively bred for open-field thigmotaxis: Life span and stability of the selection trait. *Pia K. Leppänen, S. Béatrice M. Ewalds-Kvist, & Ritva-Kajsa Selander.* 187–204.

Modality-specificity effects in priming of visual and auditory word-fragment completion. *Janet M. Gibson & Ryan Bahrey.* 117–137.

Phonological and orthographic coding skills in adult readers. *Raymond L. Majeres.* 267–280.

Puns and near puns in fables. *Sarah L. Tragesser & Louis G. Lippman.* 243–254.

Putting the comprehension in metacomprehension. *Jennifer Wiley, Thomas D. Griffin, & Keith W. Thiede.* 408–428.

Remarks of the out-going executive editor. *F. Richard Ferraro.* 229–230.

Risky decision making across three arenas of choice: Are younger and older adults differently susceptible to framing effects? *Michael Rönnlund, Erik Karlsson, Erica Laggnäs, Lisa Larsson, & Therese Lindström.* 81–92.

Second-order judgments about judgments of learning. *John Dunlosky, Michael J. Serra, Greg Matvey, & Katherine A. Rawson.* 335–346.

Serial position effects in recall of television commercials. *W. Scott Terry.* 151–163.

Teasing: For superiority or solidarity? *Sarah L. Tragesser & Louis G. Lippman.* 255–266.

Tip-of-the-tongue experiences are not merely strong feeling-of-knowing experiences. *Robert L. Widner Jr., Hajime Otani, & Sarah E. Winkelman.* 392–407.

Tip-of-the-tongue states and aging: Contrasting psycholinguistic and metacognitive perspectives. *Bennett L. Schwartz & Leslie D. Frazier.* 377–391.
